Dear colleagues,

We are pleased to share with you the [summary report](#) on the above survey on Staff Health and Well-being related to COVID-19 in which a number of FICSA members' organisations participated. Although it is not a comprehensive survey of the entire UN common-system, we hope that this report will assist our members in taking action to support the mental health and well-being of their staff both in the context of COVID-19 and in general.
