Office of the Chairman

Bureau du Président

ICSC/CIRC/GEN/03/2015

31 December 2015

To: Members of the Commission  
Executive Heads/Human Resources Directors  
FICSA, CCISUA and UNISERV Staff Representatives

From: Kingston Rhodes, Chair

Subject: General Assembly resolution 70/244 on the United Nations common system

1. At its 82nd plenary meeting of its seventieth session held on 23 December 2015, the United Nations General Assembly adopted, without a vote and without amendment, draft resolution A/C.5/70/L.14 under item 141 of its agenda entitled "United Nations Common System: report of the International Civil Service Commission", which became resolution 70/244. While the full text of the draft resolution is attached to this circular (see attachment 1)<sup>1</sup>, I would like to draw your attention to the Assembly's decisions and requests emanating from that resolution.
2. The General Assembly took decisions, *inter alia*, on the following:
  - (a) **Base/floor scale**
3. The General Assembly approved a 1.08 per cent adjustment of the present base/floor salary scale as of 1 January 2016 as shown in Appendix 1. This is the regular adjustment that is given almost every year, based on movements of salaries in the comparator civil service, on a no-loss/no-gain movement. The memorandum announcing the corresponding new post adjustment multipliers has been sent out separately and is posted on our web site.

---

<sup>1</sup> Attachment 1 to this circular contains the full text of draft resolution A/C.5/70/L.14 which, after its adoption by the Assembly became resolution 70/244.

**(b) Comprehensive review of the common system compensation package:**

**Salary scale structure, dependency allowances and transitional measures**

4. The General Assembly approved a revised net base salary scale structure, which will become effective as of 1 January 2017. As a result, the present dual (single and dependency) rate scale will be replaced with a unified salary scale which will have 13 steps at grades P1 to D1 and 10 steps at the D-2 level. Regarding the ASG/USG levels, the Assembly decided that their salaries under the unified scale should be derived in the same manner as was done for the other grades. Appendix 3, table A shows the unified salary scale as approved.

5. The dependency element will be taken out of the scale and will be payable as a separate allowance. This allowance will be provided to staff with a dependent spouse and to those who are single parents. In the latter case, no child allowance will be payable for the first child. The dependent spouse/single parent allowance will be set at 6 per cent of net remuneration. As recommended by the Commission, the transition of current staff to the unified salary scale will be done to avoid losses and to minimize windfall gains (see Appendix 3, table D).

6. On transition, those staff currently paid at the Dependency rate, who have a dependent spouse or who are single parents, will not lose out: the unified rate combined with a spouse/single parent allowance for the eligible staff will be equal to their present dependency rate of pay. Single staff members will see some gains to their base pay levels. Salaries of staff currently at steps outside the revised structure will be protected and will be subject to the same adjustment as those within the scale structure (see Appendix 3, table E).

7. There is also a group of staff who currently receive the dependency rate of pay in respect of a child because the spouse earnings are above the established threshold. These staff will be eligible for a child allowance only. However, on moving to the new structure, their pay will be initially protected with a transitional allowance, which will phase out by 1 percentage point per year until overtaken by the child allowance.

8. The unified salary scale will be introduced as of 1 January 2017 and, prior to that, will be adjusted to reflect the net pay movement of the comparator. The staff assessment rates will be revised to ensure that the Tax Equalization Fund of the United Nations remains in balance (see Appendix 3, table B). The pensionable remuneration (PR) scale introduced concurrently with the unified scale was approved as recommended by ICSC except for the ASG/USG levels which will be maintained at their present levels. The final PR scale is shown in Appendix 3, table C. This scale will be subject to adjustment prior to its introduction to reflect changes in the net remuneration in New York which may occur before the implementation date. The pensionable remuneration for staff outside the revised structure are shown in Appendix 3, table F.

9. The dependent child and secondary dependant allowances will be maintained as at present.

### **Step periodicity**

10. The General Assembly has approved a revised step periodicity under the revised salary structure which will become effective on 1 January 2017: at P-1 to P-5 levels, steps beyond step 7 will be granted biennially; biennial steps will continue to start at the D-1 levels from step 5 and at the D-2 level from step 2.
11. The granting of accelerated steps will be discontinued.

### **Education grant**

12. The General Assembly has approved a revised education grant scheme as proposed by the Commission. As a result, the present system of multiple ceilings and extensive admissible expenses will be replaced by a new system which is based on a global reimbursement ceiling regardless of the school location, and focus assistance where it is needed most: on tuition, enrolment-related expenses and mother tongue tuition. It will continue to be based on cost-sharing of expenses between the staff and the organization. The Assembly approved a declining scale of reimbursement, with higher percentage reimbursement of education expenses for lower claim levels. The declining scale is based on the 2014/2015 tuition rates as shown in Appendix 2.
13. Under the new system, boarding will be provided to those who serve in the field (A to E duty stations) for children in primary and secondary levels.
14. The special education grant will be maintained as presently applied. However, the overall reimbursement will be established as a global amount equivalent to the sum of the upper limit of the sliding scale plus the amount equivalent to the boarding lump sum under the regular education grant scheme.
15. The new scheme will go into effect as of the school year in progress on 1 January 2018.

### **Repatriation grant**

16. The Assembly approved revisions to the repatriation grant as proposed by ICSC and, in particular, decided that a threshold of five years of expatriate service shall be established as an eligibility requirement for the grant.

### **Performance incentives**

17. The General Assembly requested the Commission to conduct a study on the performance management schemes in the common system organizations, and to formulate recommendations on performance incentives based on merit that are not related to cash rewards such as possibility of accelerated step increments. Further to that, the Assembly invited the Commission to review its recommendations contained in annex II of A/70/30 in light of its findings, and report thereon not later than the 72<sup>nd</sup> session of the General Assembly.

18. The Assembly also requested the Commission to conduct a detailed study on the budgetary and administrative arrangements necessary for the establishment of a cash reward system, including funding, oversight and accountability mechanisms, and to report on it not later than the 72<sup>nd</sup> session of the General Assembly.

### **Relocation related elements**

19. The General Assembly approved a new relocation package which will come into force on 1 July 2016.

20. For the settling-in grant, the Assembly decided to provide a lump-sum amount equivalent to one month of net base pay plus applicable post adjustment at the new duty station (i.e. to maintain the same lump sum formula as in the current assignment grant, but irrespective of type of duty station; the second month of lump sum which was payable in the field when non-removal was granted has been abolished). Hence, the settling-in grant will include the following elements regardless of type of duty station (i.e. field or HQ) or the option opted for relocation shipment by staff:

(a) DSA element: equivalent to 30 days local daily subsistence allowance for staff, plus 15 days of local subsistence allowance for each accompanying family member, and

(b) Lump-sum amount: equivalent to one month of net base pay plus applicable post adjustment.

21. The General Assembly approved the Commission's recommendation to discontinue the non-removal allowance. As a transitional measure, it decided to continue to pay the non-removal allowance for up to five years for staff who moved before the implementation date of the new relocation package and opt for non-removal of household goods, at the same duty station or until the staff member moves to another duty station.

22. The Assembly approved the options concerning relocation shipment as recommended by the Commission. Those approved options are as follows:

(a) To provide full removal of household goods for relocation shipment if that option was available, or, if that option is not available, to provide the option of full removal up to the established entitlement which would be reimbursed to staff upon presentation of an invoice. In lieu of full removal, one of the following options could apply:

(i) Lump-sum option established at 70 per cent of the actual cost of relocation shipments;

(ii) Lump sum set by organizations based on 70 per cent of costs of past shipments, not exceeding \$18,000;

(b) To provide an approach similar to that in subparagraph 22 (a) above for partial removal of household goods within an appropriate entitlement according to circumstances, including for appointments of less than two years, reassignments within the same country, mission area or area of operations and moves between non-family duty stations; and

(c) To provide an entitlement for relocation shipment of household goods for staff with assignments of two years or more up to a standard 20-foot container for single staff and a 40-foot container for staff with eligible family members, regardless of the weight of household goods, via the most cost-effective route and mode of transportation.

23. Further to that, the General Assembly decided to retain the current approach to relocation travel, which would remain the responsibility of the organization.

### **Field allowances and benefits**

#### **Hardship allowance**

24. The General Assembly approved the adjusted hardship system consisting of five categories (from A to E) as recommended by the Commission. The approved payment matrix is shown in Table 1 below. The new system would be effective immediately upon implementation on 1 July 2016, without transitional measures.

**Table 1** *Hardship allowance: payment matrix (annual amounts in US\$)*

<i>Hardship category of duty station</i>	<i>Group 1 (P-1 to P-3)</i>	<i>Group 2 (P-4 and P-5)</i>	<i>Group 3 (D-1 and above)</i>
A	—	—	—
B	5 810	6 970	8 140
C	10 470	12 780	15 110
D	13 950	16 280	18 590
E	17 440	20 920	23 250

#### **Non-family service allowance**

25. The Assembly approved the new Non-family Service Allowance in lieu of the current Additional Hardship Allowance, as recommended by the Commission. There are not transitional measures for this allowance. The new allowance will be effective immediately upon implementation on 1 July 2016. The approved flat amounts, differentiated by staff with dependants and staff with no dependants, are as follows:

- (a) Staff with eligible dependants: \$19,800/year (\$1,650/month); and
- (b) Staff with no dependants: \$7,500/year (\$625/month).

### **Mobility incentive**

26. The General Assembly approved the new mobility incentive in lieu of the current mobility allowance to encourage mobility of staff to field duty stations, with annual payments for a maximum period of five years at the same duty station. The mobility incentive will apply to staff with five consecutive years of prior service in the common system and from their second assignment (that is, the first geographical move). It is not payable at "H" category duty stations. The new mobility incentive will be increased by 25 per cent upon the 4th assignment of a staff member and by 50 per cent upon the 7th assignment. The new incentive will be effective immediately upon implementation on 1 July 2016. The approved amounts are shown in Table 2.

**Table 2** *Mobility incentive: payment matrix (annual amounts in US\$)*

Assignment number	Additional amounts	Group 1 (P-1 to P-3)	Group 2 (P-4 and P-5)	Group 3 (D-1 and above)
2 to 3	None	6,500	8,125	9,750
4 to 6	25 per cent	8,125	10,156	12,188
7+	50 per cent	9,750	12,188	14,625

### **Rest and recuperation framework**

27. The General Assembly decided to maintain the provisions of the current rest and recuperation framework, as recommended by the Commission.

### **Accelerated home leave travel**

28. The Assembly decided to maintain accelerated home leave travel **only** for D and E category duty stations that do not fall under the rest and recuperation framework, with an effective date of 1 July 2016.

### **Recruitment incentive**

29. The General Assembly approved the introduction of an incentive payment for the recruitment of experts in highly specialized fields in those cases where the organization was unable to attract suitably qualified personnel, as recommended by the Commission. Such recruitment incentives should not exceed 25 per cent of annual base salary for each year of the agreed contract. Organizations should report to the Commission periodically on the payment of the recruitment incentive. The Commission will assess the scheme after a period of three years. The date of implementation is 1 July 2016.

## **OTHER MATTERS**

### **Work-life balance**

30. The General Assembly invited the organizations of the United Nations common system to make efforts to ensure work-life balance and provide career development opportunities, which are important elements for motivating and retaining staff.

### **Mandatory age of separation**

31. The General Assembly decided that the mandatory age of separation for staff recruited before January 2014 should be raised by the organizations of the United Nations common system to 65 years at the latest by 1 January 2018, taking into account the acquired rights of staff.

### **UN/US Margin management**

32. The Assembly recalled its request that the Commission continue action to bring the calendar year margin to the desirable mid-point. It also approved the ICSC recommendations regarding the margin management methodology and authorized the Commission to take appropriate action through post adjustment if the margin level breaches the trigger points of 113 or 117.

May I take this opportunity to wish all of you a happy, healthy and productive 2016.
