ClearCheck Article and the role of the Tribunal in disciplinary cases

To:	All FICSA Members
From:	FICSA Secretariat

Dear colleagues,

We are pleased to share with you two articles from Modulaw – International Legal Consulting, FICSA Legal Advisers, for the benefit of International Civil Servants on the following topics:

1. ClearCheck: a UN-wide blacklist without a UN-wide policy

In brief
What is ClearCheck?
According to the Factsheet on ClearCheck, it is a centralized, secure database that allows UN entities to share information, system-wide, on individuals with a record of serious misconduct that warranted, or would have warranted, the end of their working relationship with a UN organization.

2. The role of the Tribunal in disciplinary cases

In brief
How closely should an international administrative tribunal look at a disciplinary decision?
