Dear colleagues,

We are pleased to share with you a Legal Brief for the benefit of International Civil Servants on the following topic:

#### [Reporting Sexual Harassment in the Workplace](#)

*“Harassment of any type is antithetical to the principles of the United Nations (UN), and sexual harassment in particular undermines its credibility and degrades its staff. Five years after the UN Secretary-General established the Chief Executives Board for the Coordination Task Force on Addressing Sexual Harassment (Task Force), addressing and effectively investigating sexual misconduct within the UN system remains a persistent challenge.”*
